Promoting Responsible Reproductive Health Actions of Teenagers and Parents; and Empowering Women and the Community by Cultivating Zero Tolerance for Gender-Based Violence

PROTECT

PROJECT

The PROTECT Project will focus on influencing behavioral changes in vulnerable women, men, adolescent girls and boys in accessing reproductive health services, encourage responsible reproductive health actions and promote zero tolerance for Gender-Based Violence through increasing knowledge and improving attitude and practices.

SPECIFIC OBJECTIVE:

The PROTECT project aims to significantly improve family planning and reproductive health of the target municipalities in Camarines Sur by achieving the following outcomes:

- Increase utilization of essential reproductive health services
- Decrease prevalence of teenage pregnancy
- Decrease prevalence of gender-based violence

ACTIVITY 1: Conduct of REFLECT Sessions

RLU1: Gender and GBV
RLU2: Sexual Reproductive Health and Rights (SRHR)
RLU3: Family Planning
RLU 4: Safe Motherhood

ACTIVITY 2:

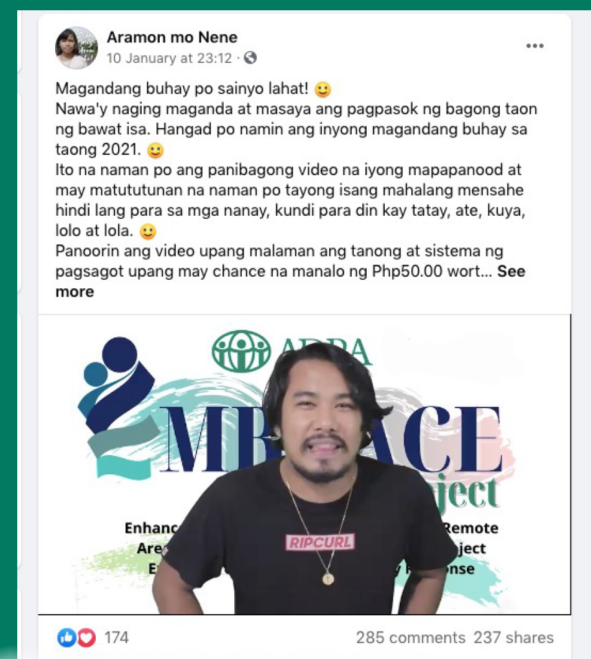

- *Training of Duty Bearers on GBV
- *Conduct of Home Visit Sessions & Monitoring by CHVs

Output Activities

ACTIVITY 3:

To conduct a radio program tackling gender responsible parenthood/family planning, sexual and reproductive health and gender based violence

ACTIVITY 4: Safe online-friendly Space

"Aramon mo, Nene!" Facebook Page

Safe virtual space where women and girls have access to safe and non-stigmatizing multi-sectoral GBV response services, and receive information on issues relating to women's rights health, and services.
